

# Sliding Fee Scale Discount

## INTRODUCTION

TechLearnIT's staff assists clients in determining if they are eligible for our sliding fee scale discounts or special grant-provided services.

TechLearnIT offers discounted program fees for qualified clients who may be unable to pay the full fee for services received at TechLearnIT's facility. Eligibility is based on household income, and clients must bring ONE of the following to the center to determine if they are eligible:

- Current year's tax form (1040)
- 2 current pay stubs
- 1 unemployment stub
- Letter for employer on letterhead that states your salary or wages
- Most recent rent receipt
- If none of the above is available, you must provide a letter of reference from any 501(c)(3) non-profit organization on their letterhead.

Discount levels for qualifying clients based on household size are shown below. Percent shown is the amount of discount.

Amounts are based upon 2009 Federal Poverty Guidelines.
